Zoom lectures
(Attendance from home is recommended)

When you attend Zoom lectures on campus, check the timetable and use the lecture rooms assigned for the lecture. If two or more lecture rooms are reserved for a lecture, please use them to maintain appropriate distance between participants. Make sure to bring your own devices such as laptops, tablets, and headphones.

Note:

- Students must attend courses during the class periods specified by the unit to which they belong.
- If schedules for Descriptive Geometry for Space Design 2 or Descriptive Geometry and Drawing overlap with Exercises in Physics II, Physics Experiment I, Physics Experiment II or Chemistry Laboratory II, consult the faculty members in charge or relevant administrative personnel.
- One credit is awarded by taking two wellness practical classes. For details of registration procedures, etc., please check on the Wellness Courses website and instructions provided during lectures.
- Please note that "Descriptive Geometry and Drawing" is a year-long course provided from 1Q through 4Q.

Face-to-face classes

Zoom lectures
(Attendance from home is recommended)

When you attend Zoom lectures on campus, check the timetable and use the lecture rooms assigned for the lecture. If two or more lecture rooms are reserved for a lecture, please use them to maintain appropriate distance between participants. Make sure to bring your own devices such as laptops, tablets, and headphones.
